## Manage Multiple Tariffs with One Solution

Systrends **eTariffManager** provides an easy-to-use FERC eTariff filing solution that manages all your company tariff needs.

No matter the size of the company or number of affiliates, Systrends eTariffManager is the ideal, feature-rich application, that helps populate the complicated metadata with ease.

**eTariffManager** features include:

- Supports these tariff document formats: RTF, PDF, and Word
- Multi-user and multi-company capability
- Detailed reports on Tariffs, Filings, Dockets and Orders
- Auto-generates clean and marked PDF attachments from a word document
- Exports the entire tariff or select tariff records
- Review previous tariff versions based on the effective date
- Able to edit multiple tariff records at once
- Auto-merge features to keep your Tariff up to date with FERC status
- Built-in filing type codes and attachments types based on program code
- FERC and business validations to ensure proper filing setup

Systrends is committed to meeting all its FERC filing customer needs and strives to provide the best-in-class eTariff software.

**Let eTariffManager guide you through the tariff management process**
